

What is Neighbourhood Watch?

Neighbourhood Watch is one of the largest successful crime reduction initiatives in the UK. Behind it lies a simple idea and a central value shared by millions. Here in Spain the system has proved very successful helping people to feel safer in their homes and cut crime levels.

Working together with your neighbours to take action can cut local crime.

Neighbourhood schemes can:

- ✓ Cut crime & the opportunities of crime.
- ✓ Help & reassure those who live in fear of crime.
- ✓ Make people aware of ways to protect their property with crime prevention advice.
- ✓ Encourage closer communities.

A better place to live, work and play.

Neighbourhood Watch is not only about reducing crime, but also creating communities who care about each other. It can bring local people of every nationality together and can make a contribution to improving their lives.

How does the scheme work?

Neighbourhood Watch can be as large or as small as your community needs - one street, a small village, a large city or the whole country (like the UK).

A lead volunteer coordinator is appointed to get people working together and to make sure things get done by liaising with the police and local authorities.

Working in partnership together

Do you want to live in a safer, friendlier environment?

Then, why not work with your neighbours and form a group in your area.

For more information or to start a group in your area, contact your local coordinator:

Don't forget - if you see something suspicious

Spanish, English and German spoken

KEEP YOURSELF SAFE

- Take care of your bags, wallets & keys
- Keep car doors locked at all times
- Beware of distractions from strangers
- Don't take valuables to the beach
- If you don't need it, don't take it
- Secure your apartment
- Look after visitors coming to stay
